^a Beginning in 2008, consumption data are no longer collected and are assumed to be zero.

^b Includes supplemental gaseous fuels that are commingled with natural gas.

^c Hydrocarbon gas liquids, assumed to be propane only.

^d Wood and wood-derived fuels.

^e There are no direct fuel costs for geothermal or solar energy.

^f Electricity sales to ultimate customers reported by electric utilities and, beginning in 1996, other energy service providers.

Where shown, R = Revised data, — = No consumption.

Note: Expenditure totals may not equal sum of components due to independent rounding.
